Castle wars unblocked learn4good

Castle Wars - Build a giant castle with the help of various bonus cards in this online card game. Destroy your opponent's castle or build a 100-story castle yourself in order to win the game. Wards cards are used to perform different actions. Each of the cards has its own action/meaning, such as building, attacking, stealing etc. You must select a card and use it for your own profit or to damage an opponent. Your achievements are displayed on the left side of the game screen, and your opponent's – on the right. Go to 'Card Deck' to see which cards are available and choose the number of each card you want to include in the game. Click the default and use at the bottom of the page if you want to play the default version of the game with a selected number of cards. Select 1 player or 2 player game to start. Then choose the level of difficulty (beginner, experienced) to fight to start. Play: A card that is not dark can be clicked on and used. Dark cards indicate that you do not have enough resources for the action displayed on the card. If all cards are dark (you can't click), discard one of the cards you don't need by holding down the Ctrl button (or cmd if you're using Mac) on your computer keyboard and clicking the selected card. You can only throw one card in each round, and this will pass the pass on to your opponent. Attack the enemy's castle with the help of various weapons, soldiers or magic. Build your own fence and castle by hiring workers or steal some bricks from your opponent. The icon in the upper-left corner of the card indicates the type of material required, while the number displayed in the upper-right corner indicates the amount of material required. The action of a card is indicated at the bottom of each card. For example, a book with castle action +20 will add another 20 bricks to the height of the castle. Build a 100-story castle and win the game! If this Flash-based game no longer works on the IE11 or Chrome browser on your PC/MAC, try playing Firefox with Adobe Flash player installed. Description: In Castle Wars, you have a handful of cards to choose an action from. Like you could build your castle, destroy some of theirs, build your resources, or destroy them. Also, use resources every time you use a card, so sometimes not all cards are available for you to use.
